

# Rescue Accident Assistance Ltd

No Hassle, No Fee, 100% Compensation

**0845 299 7790**

## Car Accident Factsheet

All accidents are traumatic but you can help minimise the stress by being prepared and we can help!

1. Have a step by step guide handy just in case.
2. Carry an independent accident report form in your glove box so that should you have an accident you can fill it in at the roadside knowing you have everything you need and they are self duplicating so you can give the other driver a copy.
3. Be aware of common liability disputes so that they can be avoided. The old adage about admitting liability at the roadside is a myth. Know the facts and you will prevent costly disputes later.
4. If your mobile phone doesn't have a camera, buy a cheap disposable camera with a flash and keep it in your glovebox so you can take pictures of the accident location and damage to the vehicles.
